

# Making Business Purchases using Your Excess Inventory and Product?

You review your Inventory.

Identify excess Inventory, surplus Stock and time-sensitive Product.

We purchase your Product at favourable rates using our Barter Trade Credits.

A Barter Trade Credit is equal to one Singapore Dollar and is treated the same for all Tax and Accounting purposes.

The Barter Trade Credit is redeemed within our international Barter Community.

You use the Barter Trade Credits to off-set various operating Cash expenses.

The benefits to you include:

- Maintain Your Market Integrity, no need to publicly discount.
- Your Accounts carry a positive balance.
- You reduce your cash expenses by effectively paying some of your existing expenses with surplus stocks.
- You clear Your Stock and valuable Warehouse Space.
